

## Technical Data

### **KONKLEEN**

#### **ACID BASED CONCRETE CLEANER, REMOVER AND ETCHING AGENT**

KONKLEEN is a concentrated concrete cleaner that penetrates to break up and dissolve lime deposits, scale, rust, algae and stains.

KONKLEEN is used in the scale removing process in sewerage plants, water treatment facilities, etc. It is also useful for the removal of concrete droppings from brickwork and concrete surfaces and safe to use on wood, glass, plastics and rubber.

#### **ADVANTAGES**

Saves time - effectively dissolves all films and deposits that would normally require scraping and brushing.

Stains and discoloration disappears with only one application.

#### **INSTRUCTIONS FOR USE**

A small trial area should be cleaned first to determine the suitable dilution.

#### **Cleaning Brickwork**

Pre-soak brickwork with water. Using a sponge, rub the affected area with a dilution of one part KONKLEEN to one part Water according to the severity of the deposits. When the reaction has stopped, wash down area with clean water

#### **Removing Hardened Concrete From Machinery and Equipment.**

For large equipment, Ready-mix trucks, concrete mixers, barrows, etc. Liberally apply with soft broom to the deposits and leave overnight if possible.

Prior cracking of the surface of the deposit will assist penetration and speed up the operation.

Considerable deposits may require further treatment with KONKLEEN. After treatment, dissolved deposits and loose, insoluble materials can be brushed and washed away with clean water.

For small equipment, soak overnight, then wash with clean water. For steel posts and stanchions, etc., dilute one to one with water and pre-soak area, brush clean and rinse with clean water. Repeat if necessary.

#### **Cleaning Floors.**

Pre-soak floor with water. Using a stiff bristle broom, agitate the affected areas with a dilution of one part KONKLEEN to one part water, accordingly. When reaction has stopped, wash the floor well with clean water.

#### **Removal Of Rust And Millscale From Steelwork.**

Pre-soak equipment with dilution of one part KONKLEEN to one part water. Leave to soak until reaction has finished.

## **GENERAL PROPERTIES**

Appearance - Clear slightly fuming yellow-green Liquid  
Odour - Acidic  
pH(10%) - 12.00

## **CAUTION**

KONKLEEN is an acid based material. Keep out of the reach of children. Do not ingest, avoid skin contact. Ensure adequate ventilation. In case of skin contact, wash area immediately with water. If the eye contact occurs, wash immediately with water and seek medical attention.

See MSDS for details.

## **OTHER SPECIALIST PRODUCTS**

### **INCLUDE**

SUPERSEAL B-66 - Acrylic sealer for concrete floors.  
TRIPLE - Water based degreaser  
MULSOLV RTU - Solvent based degreaser
